TRELLE SECOND IN WHEAT CHAMPIONSHIP AT REGINA

Blazers of the Trail and Friends Enjoy Annual Picnic Held at Saskatoon Island

The Oldimers' picnic, held on Sunday last, was a success, although attendance was not as great as in previous years. The annual meeting of the Bad Lake settlers was held at the same time.

The highlight of the sports meet was the tug-of-war between the East and West Ends.

The first half was between teams of over 25 years of age and the second was between men under that age.

Wrestling was well represented, defeating the East after a hard fight.

The second tug-of-war, between the young men, was a thriller, the East finally winning the hard-fought battle.

Ralph Carter and George Sherkipian, the West Side boys and Jimmie Oliver captained the East Enders.

For the entertainment events, under the supervision of Jack Holton, proved most interesting.

Softball and baseball were also introduced.

During the afternoon and evening many took part in the horseshoe contests.

Toward the end of the afternoon there was a sprinkling of rain and it looked as though the evening would be a washout. However, the clouds MacLean appeared on the scene and the clouds passed away. Such is the power of the weather master.

The primary purpose of the picnic

Crops Very Spotty On Outside Says C. C. Fleming

Such a better feeling in business seems to be in evidence, according to C. C. Fleming, who arrived home Saturday, via Sturgeon Lake, from a tour of the West.

He saw the yield in wheat prices, he said, was the main reason for the good feeling.

From Athabasca, he said, he was told that wheat crops, Mr. Fleming explained, were good, but the heat that he saw on his trip was at High Prairie.

In Fleming's opinion, the yield in the West was considerably lower than it was last year.

Of course, Mr. Fleming indulged in some wild stories, but none were paraded in setting with our Rich mond Hill golf course," he observed.

Mrs. Giroux was accompanied by Mr. and Mrs. Douglas Clarkson, Mr. and Mrs. Grouard, Mr. and Mrs. Joe McGinn of McLennan.

Mr. Giroux made it quite clear where he stood on redistribution so far as the Peace River was concerned. He said that this country is entitled to another seat to place it on the same basis as the south.

Locked in a meat refrigerator for an hour and ten minutes, Frank MacDonald, proprietor of MacDonald's Meat Market, R. S. Weir, on Monday evening.

They were testing the meat away for the night when the door slammed shut.

As the refrigerator is sound proof, it was impossible to attract attention, so he had to yell for help.

He had torn a piece of the flag as a signal to the court viewed the matter otherwise.

YE EDITORIAL

(By George Grover)
Up before the sun, after a restless night, being kept awake by the crackling resembling thunder, and having mice, as to much laundry which I had to do.

Ye editorial should must needs be of an inspiring nature, but how can ye write such parchments be inspired without such complete heckling going around him betimes.

And now to sermons—
The days are long ones, and already we feel a deeper and finer appreciation of one another. Here we have a chance to learn about nature, and see clean things. Here we have a chance to learn about nature, and see the expressed thoughts of other boys.

The few days I have been with you have been happy ones. Let's continue to make them so. Every boy is a real pal, every boy ready to do his part of the day's work.

Now, to one another think whether or not a kind word could not be mentioned for the good of all.

To love means to respect. There should be just as much love among boys as among one of each sex.

LIFE IS AS YOU SEE IT

(By N. Chappell)

"Two men looked out through the stars."

One saw the mud, the other saw the stars."

Why is it that one boy sees a sign of rain, or a certain type of sunset when another sees a comet, and discerns a glorious creation of beauty?

In this camp on the Beaverside, the world is seen in the midst of nature at its best. Shut off to a large extent from our ordinary life, we sit and reflect on the world outside. It is possible that to some of us it will mean only a good place to swim, and the good things which the world offers. The editor hopes that for most, if not all, we will mean that we see the beauty of the world, and the every beautiful thing about us;—that we shall go home with a new sense of the world's beauty, and the beauty and all life. What we see depends upon what we are.

CRITICISMS
(By W. Langille)

Harold Edgar is one of our heavy estates—in fact he is too heavy. Harold Edgar has been a great man, but has been critical before his attitude towards these afflictions, to watch your share.

Walter Nelson said on Sunday: "I won't pick flowers. I won't be a sissy!" Walter, you shouldn't be in the woods. Go home and pick flowers—such as Nelson Chapel.

EDINBURGH ADVANCES NOVEL TEST AS TO HIS FUTURE GAME

Professor Einstein appears to be something of a wit, for he has proposed a test to determine his future with posterity. He says that, if he was a German, and the French say that he was a Jew, and the French call him a Jew and the French an anti-Semite, then there can be no possible doubt that he was a failure. The mathematician, however, states that he sometimes puzzled the world by his theory of relativity, is to receive an A.D. He intends to deliver some mathematical lectures at the same time which will be open to the public.

PLAY AN UP-AND-DOWN BASEBALL GAME TO A TIE

The Clairmont Junior baseball team just neared to the end of their first year of playing the local up-and-down game—which they very nearly did, but not quite, having being even.

In the first frame, Sexsmith notched one and Sexsmith two. The next innings, Clairmont got a goose egg, Sexsmith one, and three more were added to this. Clairmont reported the performance of the home-bound goose egg, and Sexsmith brought in one run, and one was added to the one in favor of the local team. Things did not look so bright for the visitors. However, in the fifth frame, Clairmont scored one and went Sexsmith out one, two, three. The fifth added another run to the local team's total, which heightened them up considerably with the home boys brought in three runs in this frame, which gave the home-bound team a lead. In the sixth and seventh Clairmont came back with a bang, scoring four runs, and Sexsmith, in the same period, the home-brows scored only one lone tally. This tied the game at 10, and it was all over.

There were only two more innings to go, and they had to start all over again. In the eighth, Clairmont failed to connect with the ball, and was sent out by a small circle. Sexsmith came back with two runs, which made it 12-10. In the ninth, Sexsmith had one, but one can never tell just what will happen in a ball game, and the visitors had one, too. The final score was 12-11, which gave them one to the good. Sexsmith went out for the last time, and the first two were out. However, apparently this did not discourage them, as they finally managed to bring in a lone run, which evened up the score at 12-12. The last two were the umpire called the game.

The batters—Clairmont—Laddie and Morris; for Sexsmith—Brown, Mann and Tom Meek. The pitcher—J. Dewar referred the game.

EAST KLESKUN

EAST KLESKUN. July 24.—Practically every time we meet our old friend the editor, after exhausting our news items, we always ask him if C.C.F. we are saddened by his daily tales of slavish labor in the industry. He replies that the C.C.F. is invariably tricks and lies. We may, in his efforts to acquire information for our estimable news sheet; in fact, after observing J. H. laabs at the Del-Bolt fair, we are inclined to believe that the C.C.F. is not the only bunch of liars in the country.

Retracting our literary steps a fortnight ago, some forty of the neighborhood, including the husband of Mr. and Mrs. Gervais, Dempsey, and Mr. and Mrs. Wm. R. Black, who are leaving for their old home in England. An attempt to make up the time spent with music and other entertainment, luncheon being served in the hall. The weather was thoroughly, though their joy was tempered by a certain sadness at the thought of leaving these our good friends.

Black has for several years been a member of the C.C.F., and is conscientious and capable; while Mrs. Black, an accomplished musician, has been a member of the C.C.F. for many years. Too few people of education and refinement find their way into the C.C.F. and we sincerely hope that to seldom are appreciated when they do.

Whether there is an election in the offing or not is problematical; but, our defunct local unit of the U.F.A. has quickened life and again we are looking forward to the re-opening of our local branch. Two too few people of education and refinement find their way into the C.C.F. and we sincerely hope that to seldom are appreciated when they do.

We had the pleasure of attending, at the annual meeting of the constituency association of the U.F.A.—held at Sexsmith on Saturday, July 19, our first attendance since the abolition of the old district association, and we were most pleased to note that the old, solid, logical, hard-fisted device which used to predominate this organization is still in evidence. The new leadership is making a success of the C.C.F. and we hope that it will continue to do so.

On the morning of the fourteenth of July we gained the impression that the old bridge across the Bad Heart Creek had broken loose and that a great majority of the white poplars had been uprooted. We were awaiting an advancing force of truckloads of logs to reinforce the bridge when we observed the "Bennett bundles" going up the hill. The trees were cut down, and a seemingly endless stream of logs was watched for an advancing enemy, even going so far as to gas up the engine, but the "Bennett bundles" were up the hill. We were uprooted, the harnesses broken, and a few steps of the harnesses.

WOODCHUCK VISITS GRANDE PRAIRIE HOME—CAPTURED

A young woodchuck boy, who at one time visited the Chastek home on Monday, sharp at 12 o'clock. He evidently knew his way about the house door for awhile, then strode hopefully down the hall, but when he did just stare at the children in fact—he started to look for a more homely place.

The woodchuck was discovered later in an old rusted pail at the bottom of a chair pedestal near the entrance stairs. It had escaped, submitting, with occasional chattering, to having a nap. It was captured by being led to a post and tied up.

Apparently, however, he did not like this treatment either and escaped, but was captured in the screen door.

It is suspected, by the kind-hearted who captured him, that the house mouse on purpose.

time he was two years old. He lived with his grandmother in the New York Lower East Side, whence so many of us have come. His parents moved to Canada when he was three years old.

Economic pressure forced him to leave school and go to work at the age of four. He worked in a lumber mill, then in a sawmill, then in a lumber camp.

He learned to speak English and French and became a good worker.

That naturally led to the stage, and for years he worked away patiently learning his trade in small theatre companies, first in the United States, then in Canada.

He became a member of the Ziegfeld Follies in New York for years and then in the successive editions of "Ziegfeld Follies." He became a member of the Ziegfeld Follies in New York for years and then in the successive editions of "Ziegfeld Follies."
